Custom Exception Classes

Custom exception classes hierarchy

Unchecked exceptions inherit from
RuntimeException superclass

Checked exceptions inherit directly
from Exception superclass

Custom exception class

```
public class MyCustomException extends Exception {  
    public MyCustomException(String message) {  
        super(message);  
    }  
}
```

Custom exception class

Inherits from Exception superclass

```
public class MyCustomException extends Exception {  
    public MyCustomException(String message) {  
        super(message);  
    }  
}
```

Custom exception class

Inherits from Exception superclass

```
public class MyCustomException extends Exception {  
    public MyCustomException(String message) {  
        super(message);  
    }  
}
```

We should call de superclass constructor

CUSTOM EXCEPTIONS DEMO

“Con paciencia los impacientes son vencidos y superados.”

Ramón Llull Filósofo
